APPLES

Our apple trees are two and three year old trees, carefully grown and graded for your satisfaction. You will find all of the good old varieties and most of the good new varieties included in our price list.

4 to 5 ft. size	each \$1.35
5 to 6 ft. size	each 1.50

ANOKA—A late summer variety ripening in August. Outstanding characteristic of the variety is its ability to bear at early age.

BEACON—All red summer apple ripening a little after Duchess but keeping better. Fruit is good size, fine quality and flavor. Tree is hardy everywhere in the state.

CORTLAND—A late fall apple of high quality. Color is bright red, making it suitable for both home and commercial planting. It is a McIntosh seedling with McIntosh mildness of flavor, a whiteness of flesh.

DELICIOUS-RED—Winter dessert apple. Does best if top-worked.

DELICIOUS-YELLOW—Highest quality dessert apple but subject to winter injury in this area.

DUCHESS—Red—Best of the summer cooking apples. Color, bright solid red; fruit, large and of good flavor.

FIRESIDE—A new introduction of Minnesota, this apple should be planted in every orchard. It is a fine flavored, red winter apple of the highest possible quality. It keeps well in storage.

HARALSON—Comes out bearing early and produces large red apples more suitable for cooking or dessert.

JONATHAN—A late fall apple of high quality. Flesh is crisp and juicy, color of fruit is dark red. Hardy in the southern part of the state.

MALINDA—Old hardy winter variety. Sweet flavor after frost.

MCINTOSH—A late fall or early winter variety. Fruit is of good size, red in color, flavor excellent. This variety is one of the best commercial varieties in the state and is likewise as popular for home use.

MCINTOSH, Early—Resembles the parent McIntosh considerably but is much earlier in ripening, following Yellow Transparent by about 10 days. Color of fruit is rich red, flavor and quality excellent and the tree is hardy and vigorous.

MELBA—A summer variety of apple ripening a little later than Yellow Transparent. Quality is much better, of good size and color is a bright red.

MINNESOTA No. 790—An unnamed variety from the Minnesota Fruit Breeding Farm that is proving itself very worthwhile. Fruit is late fall or early winter variety. Fruit is very large, color is bright, solid red. It is a fine baking apple, but equally good for other dessert purposes.

MINION—A recent Minnesota Fruit Breeding Farm introduction. Resembles Jonathan in color and size but tree is more hardy and vigorous.

NORTHWEST GREENING—The old reliable winter keeper, excellent for baking and other cooking. Trees large and vigorous, hardy everywhere. Fruit, large, color, greenish yellow.

PRAIRIE SPY—A recent introduction of the Minnesota Fruit Breeders Farm and variety for the Northwest. A winter apple of high quality for both dessert and cooking. Keeps well in storage. Fruit is large and mostly red in color. Trees are strong and hardy anywhere in the state. Trees bear at early age.

RED-WEIL (Min. No. 638)—A late Wealthy type, good keeper, annual bearer. Fruit will not drop.

TOLMAN SWEET—An early variety but still popular winter fruit. Fruit is medium size, pale yellow with slight red tint. Flesh is firm, rich and very sweet. Tree is hardy in southern part of state.

VICTORY (Min. No. 980)—Best McIntosh type for this area. Fruit keeps well and does not drop from trees.

WEALTHY—The best known fall apple. Fruit is large and mostly red; flesh is white, juicy and of fine flavor. Tree is hardy and productive.

WOLF RIVER—Large, late fall and winter apple.

YELLOW TRANSPARENT—A summer variety that grows anywhere. Fruit medium size, pale yellow and good quality when first ripe, but does not keep very long.
